overflowing with fat quarters and fabric scraps left over from previous projects and they don't know what to do with them.

**The purpose of scrap club is to make quilts with fabrics that otherwise would remain unused and clutter up your sewing room.**

Each scrap club session will last 3 months. In most cases, the first month you will piece units, the second month you will construct blocks and the third month you will explore setting options, assemble the quilt top and on occasion, learn a new edge or border treatment. The quilt designs are based on traditional pieced blocks and lend themselves to a variety of sizes and color schemes. Many of the students trade fabrics to add variety to the scrappy quilt designs.
